## Professional Summary

Data scientist with a Master of Science in Data Science from State University and a proven track record of leading ML model development, optimizing data processes, and mentoring junior team members. Proficient in Python, R, SQL, and Java with hands-on experience in TensorFlow, PyTorch, and Docker.

## Education

### State University

- Master of Science in Data Science
- Springfield, ST
- Graduated: May 2023
- GPA: 3.92/4.0

### Tech University

- Bachelor of Science in Computer Science
- Techville, ST
- Graduated: May 2021
- GPA: 3.85/4.0

## Professional Experience

### Data Scientist | Tech Solutions Inc.

\* Remote | June 2023 - Present

\* - Led the development of ML models at Tech Solutions Inc., enhancing customer retention by 20%

- - Implemented an automated data pipeline to reduce processing time by 60%
- - Mentored 3 junior data scientists in ML best practices
- - Developed predictive models for customer behavior during internship at Innovation Corp
- - Created interactive dashboards using Python and Streamlit
- - Optimized ETL processes to improve efficiency by 40%

## Data Science Intern | Innovation Corp

\* Springfield, ST | May 2022 - August 2022

\* - Led the development of ML models at Tech Solutions Inc., enhancing customer retention by 20%

- - Implemented an automated data pipeline to reduce processing time by 60%
- - Mentored 3 junior data scientists in ML best practices
- - Developed predictive models for customer behavior during internship at Innovation Corp
- - Created interactive dashboards using Python and Streamlit
- - Optimized ETL processes to improve efficiency by 40%

## Skills

- **technical:** Proficiency in Python, R, SQL, Java, Experience with TensorFlow, PyTorch, Docker, Knowledge of big data analysis and usability testing, Ability to conduct qualitative and quantitative research activities
- **soft:** Strong communication skills, Adaptability to prioritize research projects, Problem-solving skills, Creativity and innovation in uncovering user insights
